Re: EPA Approval – Supplemental Removal Action Completion Report, Jorgensen Forge
Outfall Site, Lower Duwamish Waterway Superfund Site, Seattle, Washington

Dear Mr. Dyer and Mr. Ernst:

The US Environmental Protection Agency (EPA) has reviewed the Supplemental Removal Action Completion Report (Completion Report), submitted to the EPA by the Boeing Company and Jorgensen Forge, as part of the Second Modification to the Administrative Order on Consent for Removal Action at the Jorgensen Forge Outfall Site.

All previous comments have been addressed and EPA is hereby approving the report. EPA will use the results from the Completion Report to continue to inform the 3rd Modification to the Removal Order for the excavation for the Uplands Project – Phase 4B and to also inform the subsequent Corrugated Metal Pipe Work Plan (CMP Work Plan) that will be developed under the 3rd Modification.

Should you have any questions I can be contacted at sanga.ravi@epa.gov or 206-553-4092. Inquiries of a legal nature need to be addressed to Richard Mednick at mednick.richard@epa.gov or 206-553-1797.

Sincerely,

Ravi Sanga
